

CAN BOTANA 10 has a very spacious and airy ground-floor comprising a lounge, dining-area, kitchen, laundry room, downstairs cloakroom and outside terraces at both the front and rear.

The villa is fitted with locally-sourced furniture, and is tiled throughout in a typical and traditional Mallorcan theme.

Upstairs, there are two large bedrooms, both with two single beds, fitted wardrobes and many drawers for storage.

The master bedroom has double doors leading onto a large private sun terrace at rooftop level. The second bedroom has two sets of windows overlooking the pool in the distance. Also upstairs is the family bathroom, which houses a bath, shower and bidet.
